Q2. Basic Requirements for UM (User Management) *(Please provide a mark and grade, and some written feedback.)*	
Mark: 95/100 **Grade:** HD **Your feedback:** meets all the requirements for UM. New guests can use their created access code to login. Might be improved by adding a personalised message for each login.	

Q3. Basic Requirements for DM (Data Management)
(Please provide a mark and grade, and some written feedback.)

Mark: 93/100
Grade: HD
Your feedback: the ability to create new guests and add them to the guest list only partially works. The guests are created in the database but are unable to be immediately invited. Invitations do not show the admin that created the event.

Q4. Basic Requirements for JF (Journey and Flow)
(Please provide a mark and grade, and some written feedback.)

Mark: 100/100
Grade: HD
Your feedback: Great navigation menu. Used breadcrumbs as well. About screen displays the copyright statement and third-party libraries used.

Q5. Additional Functionalities
(Please provide a mark and grade, and some written feedback.)

Mark: 100/100
Grade: HD
Your feedback: Both Additional functionalities were executed perfectly.

(Please provide a mark and grade, and some written feedback.)

Mark: 95/100
Grade: HD
Your feedback: Displays all relevant information. A bit cluttered

Q7. Usability Summary Document
(Please provide a mark and grade, and some written feedback.)

Mark: 95/100
Grade: HD
Your feedback: application had a minimalist, intuitive design with a nice colour palette .
The usability summary was able to show how nielson's heuristics were implemented.
Could have used a "Show password" option on login screen to view password.

Q8. Project Management Summary Document
(Please provide a mark and grade, and some written feedback.)

Mark: 99/100
Grade: HD
Your feedback: The group discussed their method of dividing the workload using scrum principles
and agile mindsets. The addition of a wireframe collaboration platform
